**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

A supplemental preliminary amendment filed on 4/6/2005 have been received and entered. Claims 1-4 have been cancelled. Claims 5-46 are pending in the application.

The corrected drawing of figure 3 submitted on 12/27/2004 have been received and accepted by examiner.

The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609 A(1) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

### *Specification*

1. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

2. The abstract of the disclosure is objected to because the abstract is not within the range of 50-150 words. Correction is required. See MPEP § 608.01(b).

***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 5-46 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 5 recites the limitation "the inner product" in line 6. There is insufficient antecedent basis for this limitation in the claim.

Claim 5 recites the limitation "the projection" in line 8. There is insufficient antecedent basis for this limitation in the claim.

Claim 6 recites the limitation "the projection of the that signal" in line 11. There is insufficient antecedent basis for this limitation in the claim.

Claim 7 recites the limitation "the projection of the that signal" in line 12. There is insufficient antecedent basis for this limitation in the claim.

Claim 8 recites the limitation "the projection of the that signal" in line 15. There is insufficient antecedent basis for this limitation in the claim.

Claim 9 recites the limitation "the inner product" in line 5. There is insufficient antecedent basis for this limitation in the claim.

Art Unit: 2863

Claim 9 recites the limitation "the projection" in line 9. There is insufficient antecedent basis for this limitation in the claim.

Claim 9 recites the limitation "repeating steps (b) through (f)" in line 13 is improper. It should be—repeating steps (b) through (e)---.

Claim 13 recites the limitation "such that that the inner product" in lines 5-6. There is insufficient antecedent basis for this limitation in the claim.

Claim 13 recites the limitation "the given individual signal" in line 9. There is insufficient antecedent basis for this limitation in the claim.

Claim 13 recites the limitation "the projection" in line 12. There is insufficient antecedent basis for this limitation in the claim.

The dependency claims have been rejected as being depended on the base claims.

#### ***Allowable Subject Matter***

5. Claims 5-46 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
6. The following is a statement of reasons for the indication of allowable subject matter: in combination with other limitations in the claimed combination, the prior art does not disclose or suggest the claimed invention, particularly require in apparatuses/method which include the claimed combination in technique and steps of performance as recited.

***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bryan Bui whose telephone number is 571-272-2271. The examiner can normally be reached on M-Th from 7am-4pm, and Alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John E. Barlow can be reached on 571-272-2269. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
